

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1-2. (Canceled)
3. (Currently Amended) A suture trimmer, the suture trimmer comprising:
a shaft having a proximal end and a distal end and an axis therebetween, the shaft having a groove formed in a side thereof, the groove extending from the distal end toward the proximal end and being in communication with an opening formed in the side of the shaft, the opening disposed proximal the distal end of the shaft;
a cutting member slidably disposed within the shaft;
a suture retainer slidably disposed within the shaft and within the cutting member; and
a handle, the handle disposed adjacent the proximal end of the shaft, wherein the handle further includes a first lever and a second lever, the first lever operatively coupled to the suture retainer to move the suture retainer within the shaft and within the cutting member and the second lever operatively coupled to the cutting member to move the cutting member within the shaft and around the suture retainer to cut the suture.
4. (Currently Amended) The suture trimmer according to [C]claim 3, wherein the handle further includes at least one biasing member, the biasing member in communication with at least one of the cutting member and a suture retainer.
5. (Currently Amended) The suture trimmer according to [C]claim 4, wherein the opening has a proximal edge, and wherein the cutting member includes a sharpened edge, the sharpened edge adapted to engage the proximal edge to sever suture when suture is disposed through the groove and opening.
6. (Currently Amended) The suture trimmer according to [C]claim 5, wherein the sharpened edge of the cutting member is retracted within the shaft until withdrawn by applying a force to the second lever.

7. (Currently Amended) The suture trimmer according to [C]laim 6, wherein a suture is disposed within the groove and opening by retracting the suture retainer within the shaft by applying a force to the first lever.

8-26. (Canceled)

27. (Currently Amended) The suture trimmer according to [C]laim 3, wherein the cutting member has a proximally facing cutting edge.

28. (Currently Amended) The suture trimmer according to [C]laim 3, wherein the first lever and the second lever are each movable with respect to the handle.
